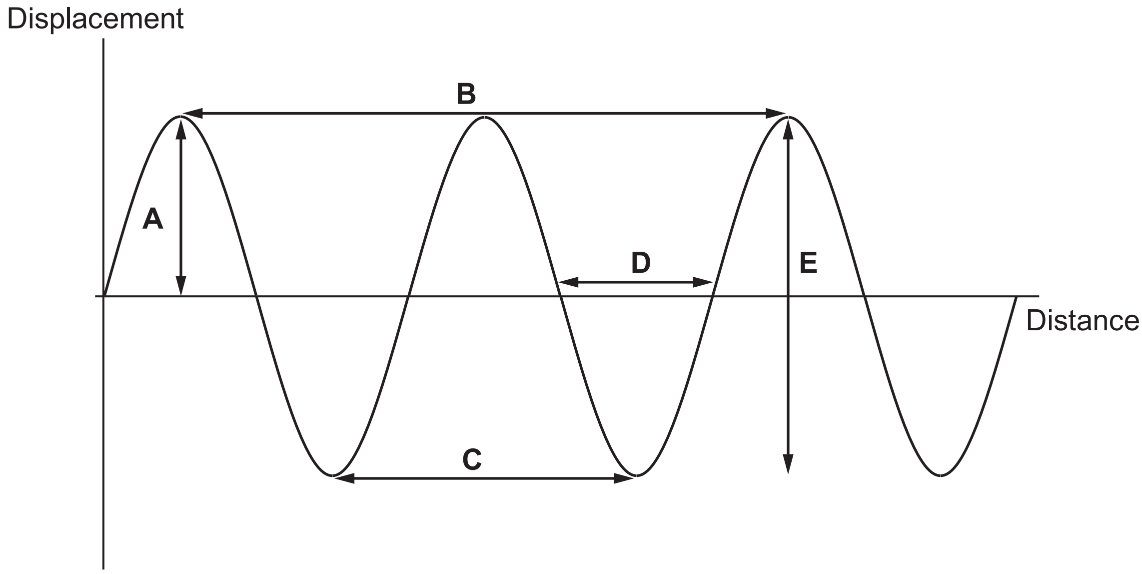
2. The diagram represents water waves on the surface of a swimming pool.



(a) How many complete waves are shown in the diagram? .... [1]

(b) Which letter **A**, **B**, **C**, **D** or **E** shows the amplitude of the wave? .... [1]

(c) Select a word from the box to complete the following sentences.

frequency	time	speed	wavelength	amplitude

(i) The number of waves per second is the .... [1]

(ii) The maximum displacement of the wave is the .... [1]

(d) A wave peak takes 0.5 s to travel the distance labelled **B** on the diagram. The speed of the wave is 20 cm/s.

(i) Use the equation:

distance = speed × time

to calculate the distance travelled by the wave. [2]

Distance = ... cm

(ii) Calculate the wavelength. [1]

Wavelength = ... cm

(e) Water waves are transverse waves.

(i) Give another example of a transverse wave. [1]

....

(ii) Sound waves are not transverse waves. What type of waves are they? [1]

....
