					AO1	AO2	AO3	Total	Maths	Prac
4				Indicative content A – destructive/convergent plate boundary oceanic and continental plates move towards one another more dense oceanic plate forced under less dense continental plate friction causes earthquakes, subducted plate melts, rising magma forms volcanoes, mountain building B – constructive/divergent plate boundary plates move apart magma wells up to fill gap magma cools and forms new igneous, sea-floor spreading 5-6 marks Both boundaries discussed, good detail for both <i>There is a sustained line of reasoning which is coherent, relevant, substantiated and logically structured. The candidate uses appropriate scientific terminology and accurate spelling, punctuation and grammar.</i> 3-4 marks Some detail relating to both boundaries or one boundary with good detail <i>There is a line of reasoning which is partially coherent, largely relevant, supported by some evidence and with some structure. The candidate uses mainly appropriate scientific terminology and some accurate spelling, punctuation and grammar.</i>	6			6		

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
				1-2 marks Some detail relating to one boundary <i>There is a basic line of reasoning which is not coherent, largely irrelevant, supported by limited evidence and with very little structure. The candidate uses limited scientific terminology and inaccuracies in spelling, punctuation and grammar.</i> 0 marks <i>No attempt made or no response worthy of credit.</i>
