

FOUNDATION TIER ONLY QUESTIONS

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
1	(a)	(i)	I	hydrogel	1			1		
			II	photochromic (pigment)	1			1		
		(ii)		heat it ☒ add water ☐ place it in sunlight ☐	1			1		
	(b)	(i)		high melting point ions are regularly arranged conducts electricity when dissolved or molten strong bonds between ions ions are free to move ions cannot move weak bonds between ions award (1) for each correct line do not credit if more than one line drawn from either property	2			2		

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
		(ii)		low melting point does not conduct electricity strong forces between molecules molecules cannot move weak forces between molecules molecules are not charged molecules are tightly packed award (1) for each correct line do not credit if more than one line drawn from either property	2			2		
	(c)			hard (1) over (1)	2			2
