

Question			Marking details	Marks available					
				AO1	AO2	AO3	Total	Maths	Prac
6	(a)	(i)	Use of potential equation i.e. $V = k \frac{q}{r}$ (1) -8100 [V] OR 426-506 [V] seen or implied (1) Both added / subtracted to give correct answer i.e. 7600 [V] (1)	1	1 1		3	2	
		(ii)	Potential / kV  Distance from negative charge/ cm General shape (1) +7500 @ 16 - 18 cm (1) 0 @ 8 - 10 cm (1) N.B. Ignore fields inside charges should be 0		3		3	2	

Question			Marking details	Marks available					
				AO1	AO2	AO3	Total	Maths	Prac
	(b)		Use of field equation i.e. $E = k \frac{q}{r^2}$ (1) 810 000 and negligible OR 2 800 OR 2 500 seen (1) Both fields to left at this point OR lines into -ve and out of +ve (1)	1	1 1		3	2
