

Question				Marking details	Marks Available					
					AO1	AO2	AO3	Total	Maths	Prac
8	(a)			130 (1) × 3 = 390 (1) × 30 = 11 700 (1) 390 / 3900 on answer line = (2)		3		3	3	
	(b)	(i)	I	At 0.01 number of cells = 4.5×10^3 / 4500 (1)			1	1	1	1
			II	Doubling 3 times of 4.5×10^3 / ecf (1) Ans = 3.6×10^4 (1) where there is an absorbance of 0.081 (1) (so disagree) OR Doubling (1) 3 times/ 0.01→0.02→ 0.04 → 0.08 (1) Ans = 0.08 which is > 0.03 (1) (So disagree)			3	3	3	3
		(ii)		3.6×10^4 (ecf) × 7 (1) = 252 000 (ecf) (1) This is more than 120 000 so would make a person ill (ecf) (1) Judgement must match answer on ecf			3		2	
				Question 8 total		3	7	10	7	4
