

			<i>There is a line of reasoning which is partially coherent, largely relevant, supported by some evidence and with some structure. The candidate uses mainly appropriate scientific terminology and some accurate spelling, punctuation and grammar.</i> 2 marks Candidates recognise cities with hard and soft water. OR Candidates recognise the changes in the hardness of water by the volume of soap required. May include a reference to temporary hard water in Southampton. <i>There is a basic line of reasoning which is not coherent, largely irrelevant, supported by limited evidence and with very little structure. The candidate used limited scientific terminology and inaccuracies in spelling, punctuation and grammar.</i> 0 marks No attempt made or no response worthy of credit.						
		(ii)	Any 2 × (1) from: furring or lime-scale in a kettle (1) (lime-scale causing) blocked pipes (1) inefficient boilers(1) scum with soaps/uses a lot of soap/can't get bubbles/can't get lather (1) decreased lifetime of appliances (1)	2
