

Question				Marking details	Marks Available					
					AO1	AO2	AO3	Total	Maths	Prac
2	(a)	(i)		Brian(1) High white blood cell count (1)	1		1	2		
		(ii)		Gareth(1) Low red blood cell count (1)	1		1	2		
		(iii)		Gareth(1) Low platelet count / problems with blood clotting(1)	1		1	2		
	(b)			veins have thinner walls / valves / larger lumen(1) muscle contractions push blood along / to prevent backflow of blood / reduce friction (1) capillaries are <u>one cell</u> thick (1) to allow exchange of substances (1)	4			4		
	(c)	(i)		Constant speed = $\frac{96}{6}$ (subs) (1) = 16 m/s(1) acceleration = $\frac{16}{2.5}$ (ecf)(subs) (1) = 6.4 (m/s ²) (1) Only allow ecf if speed calculation has been attempted	1 1	1 1		4	3	
		(ii)		Subs: $22 = \frac{mass}{1.9^2}$ (1) Manip and answer = 79.4(2) (kg) (1)	1	1		2	1	
				Question 2 total	10	3	3	16	4
