

6. Many plants such as *Quercus* (oak), *Ligustrum* (privet) and *Narcissus* (daffodil), are mesophytes. However, other plants can be classified as xerophytes or hydrophytes.

The photomicrographs below show transverse sections through the leaves of *Pinus* (pine) and *Potamogeton* (pondweed).

***Pinus* (pine) – a xerophyte.**

1.0 mm

***Potamogeton* (pondweed) – a hydrophyte.**

1.0 mm
