

2. The photograph shows *Erinaceus europaeus*.

Erinaceus europaeus has many common names, such as hedgehog, urchin and furze-pig.

- (a) State:
- (i) the Kingdom to which the hedgehog belongs; [1]
-
- (ii) the Genus name for the hedgehog. [1]
-
- (b) Explain why scientists use the scientific name, rather than common names for organisms. [2]
