

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
	(c)			Any 5 from: 1. In summer, leaves {photosynthesise / make sugars} {loaded/ moved into} {phloem / sieve tubes} (1) 2. Water potential falls water absorbed by osmosis (1) Must be in phloem or sieve tubes 3. Reference to hydrostatic pressure (1) 4. Flow (in sieve tubes) from high to low pressure regions (1) 5. tubers (sucrose) converted into starch (1) 6. water potential rises + water lost (1) 7. (Sugars in tubers)allows (rapid) growth (in spring) / sugars used to form cellulose for growth/ sugars for respiration (1)	3	2		5
