

WJEC GCE BIOLOGY - HUMAN BIOLOGY

SUMMER 2017

UNIT 3 MARK SCHEME

Question				Marking details	Marks Available					
					AO1	AO2	AO3	Total	Maths *	Prac **
1	(a)	(i)		X ATP and Y Reduced NADP/ NADPH ₂ / NADPH +H ⁺ / NADPH Not NAD	1			1		
		(ii)		RuBisCO/ carboxylase/ ribulose bi(s)phosphate carboxylase/ RuBP carboxylase	1			1		
	(b)			Any five (x1) from: A. (Initially), Carbon dioxide + RuBP reaction continues/ GP continues to be produced(1) B. GP cannot be {converted/ reduced} to TP (1) C. because ATP and reduced NADP are needed (1) D. ATP and reduced NADP {only produced in light/ not produced in dark}(1) E. (therefore) less TP available {to regenerate RuBP/ as it used produce glucose} (1) F. (Therefore) rate of reaction of carbon dioxide and RuBP decreases (1)		3	2	5
