8	(a)			Indicative content: • Herbivores Any two from: rabbits, mice, flies, aphids, • {Second stage consumers/carnivores} Any two from: birds of prey, shrews, spiders, ladybirds • more plants • {Herbivore/ flies/ aphids/ mice} increase in number • {carnivores/ shrews/ spiders/ ladybirds} increase in number • Numbers of mice could decrease • mice are the <u>only</u> source of food for birds of prey • numbers of birds of prey decrease • reference to competition 5-6 marks <i>Herbivores and second stage consumers identified. Explanation of effect on populations if rabbits destroyed. Mice affected differently from other herbivores.</i> <i>There is a sustained line of reasoning which is coherent, relevant, substantiated and logically structured. The candidate uses appropriate scientific terminology and accurate spelling, punctuation and grammar.</i> 3-4 marks Reference to increased plant growth giving more food for named herbivores and hence secondary consumers (unnamed), Different status of mice not recognised <i>There is a line of reasoning which is partially coherent, largely relevant, supported by some evidence and with some structure. The candidate uses mainly appropriate scientific terminology and some accurate spelling, punctuation and grammar.</i>	3	3		6
