

SECTION AAnswer **all** questions.

1. Complete the table below.

[2]

Molecule	Number of bonding pairs of electrons in outer shell	Number of lone pairs of electrons in outer shell	Shape
BeCl ₂	2	0	
PCl ₃			pyramidal

2. Complete the table below to show the type or types of bonding present in the following solids.

[2]

Solid	Type or types of bonding
calcium	
iodine	

3. Give the oxidation number of rhenium in ReOCl
- ₄
- .

[1]

.....
