

Question				Marking details	Marks Available					
					AO1	AO2	AO3	Total	Maths	Prac
6	(a)	(i)		Centriole / centrosome	1			1		
		(ii)	I	Metaphase (1) The {chromosomes / pairs of chromatids} are {on / lined up / aligned} in {the middle of the spindle / on the equator (of the cell)} (1)	1	1		2		
			II	Labelled diagram showing chromosome after DNA replication. With Chromatids and Centromere Correct diagram with one label (1) Correct diagram with two labels (2) 		2		2		
	(b)	(i)		Quaternary,(1) more than one polypeptide / owtte (1) 2 nd mp linked to 1 st mp		2		2		
		(ii)		{No/slower / decreased} increase in size / growth (1) {No/slower / decreased} spindle (formed) (1) {No/slower / decreased} mitosis / cell division would stop at {prophase / metaphase} (1)			3	3		
	(c)			Any two (x1) from: No {spindle / centrioles} in bacteria (1) Bacterial {genome / DNA} is circular / bacteria don't have {chromosomes / histones} (1) Bacteria have no nuclei / DNA is in the cytoplasm (1)			2	2		
				Question 6 total	2	5	5	12
