

Question				Marking details	Marks Available					
					AO1	AO2	AO3	Total	Maths	Prac
2	(a)	(i)		Holozoic (1) NOT heterotrophic unqualified	1			1		
		(ii)		<i>Hydra</i> Receives oxygen/glucose/products of photosynthesis/sugars/amino acids(1) <i>Chlorella</i> Receives {carbon dioxide/glucose/sugars/amino acids/products of digestion/minerals/protection/place to live/habitat} (1)		2		2		
	(b)			Similarity: {Both/owtte} are autotrophic (1) Difference: For <i>Nostoc</i> Photosynthetic/photoautotrophic/phototrophic/ ref to use of light energy (1) For <i>Nitrosomonas</i> Chemosynthetic/chemoautotrophic/chemotrophic/ref to use of energy from chemical reactions (1) Correct use of photoautotroph and chemoautotroph = 3 marks		1	2	3		
	(c)			Similarities: {Both/owtte} are heterotrophic (1) Difference: For <i>R. stolonifer</i> Saprotrophic/saprobiontic/saprophytic (1) For <i>R. oryzae</i> Parasitic (1) Extracellular digestion/suitable description (1) Accept reference to {either/both} species carrying out extracellular digestion		2	2	4
