7			<u>Indicative Content</u> <u>PCT</u> • All glucose and some sodium ions (selectively) reabsorbed (back into the blood) • Using co transport with Na⁺ • Lowers the water potential of the blood • So water out of filtrate into blood by <u>osmosis</u> • So less water in filtrate <u>Descending limb of loop of Henle</u> • Drop in water due to: • Permeable to water • Water moves out of filtrate by <u>osmosis</u> into {tissue/interstitial fluid} • Due to high concentration of Na⁺ ions there • Sodium ions increase in descending limb due to <u>diffusion</u> back in from interstitial fluid / medulla <u>Ascending limb of loop of Henle</u> • Impermeable to water • So water does not move out so levels stay same • Na⁺ actively transported out (into interstitial fluid) • So drop in ascending • Makes filtrate more concentrated with Na⁺ at bottom of loop / reference to counter current multiplier 7-9 marks Detailed explanation of all three sections. Including correct reference to graph for 8-9 marks.	5	4				

Question			Marking Details	Marks Available					
				AO1	AO2	AO3	TOTAL	Maths	Prac
			The candidate constructs an articulate, integrated account, which shows sequential reasoning. The answer fully addresses the question with no irrelevant inclusions or significant omissions. The candidate uses scientific conventions and vocabulary appropriately and accurately. 4-6 marks Explanation of two areas or brief explanation of three areas The candidate constructs an account correctly linking some relevant points, such as those in the indicative content, showing some reasoning. The answer addresses the question with some omissions. The candidate usually uses scientific conventions and vocabulary appropriately and accurately. 1-3 marks Brief explanation of any of one area. The candidate makes some relevant points, such as those in the indicative content, showing limited reasoning. The answer addresses the question with significant omissions. The candidate has limited use of scientific conventions and vocabulary. 0 marks The candidate does not make any attempt to give a relevant answer worthy of credit.
