

SECTION A

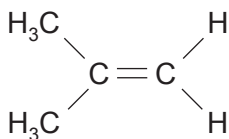

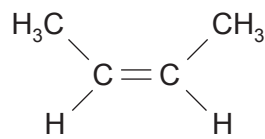

Answer all questions in the spaces provided.

1. Draw the **skeletal** formula of 2-bromo-3-methylbutane. [1]

2. Write the equation that corresponds to the standard molar enthalpy change of formation of magnesium carbonate, MgCO_3 . [2]

.....

3. The compounds shown below have the same molecular formula.

**A****B**

State which of these compounds can exist as *E-Z* isomers.

Explain your answer and name the isomer.

[2]

.....
.....
.....

Name of isomer
