

Answer **all** questions.

1. (a) The diagram shows the structure of the Earth.

mantle

inner core

crust

Use words from the box to label the layers of the Earth's structure **on the diagram**.

One has been done for you.

[2]

- (b) Alfred Wegener's theory of continental drift describes how the Earth's continents have moved to their current positions.

Underline the correct words in the brackets to complete the sentences which describe the evidence on which Wegener based his theory. [3]

Wegener found that there are similar (**trees** / **animals** / **rocks**) on different continents and that some continents have (**mountains** / **coastlines** / **oceans**) which fit together. Most people did not believe Wegener's theory at the time because he could not explain how the continents (**moved** / **formed** / **melted**).

- (c) **Circle** the name given to the large pieces which make up the Earth's crust. [1]

plates

fractions

segments
