

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
	(d)	(i)		each end of the C=C double bond has two different groups bonded to it	1			1		
		(ii)	I	electrophilic addition	1			1		
			II	(intermediate) carbocations / carbonium ions have similar stabilities / similar reactivities / similar activation energies / are formed at similar rates			1	1		
		(iii)		F H H C H Br CF₃ C * F H Br C H CF₃ H C * correct formulae (1) chiral centres correctly shown on both compounds (1) award (1) for one correct formula and chiral centre		2		2		
		(iv)		Br C FH₂ F H H F C Br C H CH₂F H F F C		1		1		
				Question 8 total	4	6	4	14	1	2
