

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
8	(a)	(i)		2NaCl		1		1		
		(ii)		an insoluble solid formed during a reaction		1		1		1
		(iii)		all points plotted correctly (2) any four or five points plotted correctly (1) tolerance $\pm\frac{1}{2}$ small square appropriate smooth curve drawn through points (1)		3		3	3	3
		(iv)		as concentration increases, time decreases			1	1	1	
		(v)		as concentration increases, rate increases			1	1	1	
	(b)	(i)		as temperature increases, reaction rate increases (1) accept 'as temperature increases, reaction time decreases' curve is steeper at higher temperatures (1) accept 'curve becomes horizontal more quickly at higher temperatures'			2	2	1	2
		(ii)		dirty tube / tube not washed out properly			1	1		1
