

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
8	(a)			faster reaction / higher rate at higher temperature (1) particles have more energy / move faster at higher temperature (1) award (1) for any of following • more collisions per given time • more frequent collisions • greater chance of collisions • more collisions have energy above activation energy • more successful collisions	3			3		1
	(b)			rate decreases over time (1) due to reactant particles being used up / fewer reactant particles (1)	2			2		1
