

Question				Marking details			Marks available														
							AO1	AO2	AO3	Total	Maths	Prac									
7	(a)			salt A	potassium iodide	accept KI	2		1	3		3									
				observation B	brick red (flame)																
				observations C	apple green (flame) and cream (precipitate)																
				award (1) for each correct row																	
	(b)			<table><tr><td>Ion</td><td>Number of protons</td><td>Number of electrons</td></tr><tr><td>Ca²⁺</td><td>20</td><td>18</td></tr><tr><td>Br⁻</td><td>35</td><td>36</td></tr></table>			Ion	Number of protons	Number of electrons	Ca ²⁺	20	18	Br ⁻	35	36		2		2		
Ion	Number of protons	Number of electrons																			
Ca ²⁺	20	18																			
Br ⁻	35	36																			
				award (1) for each correct row or column no ecf from incorrect number of protons																	
	(c)			Ca ²⁺ + CO ₃ ²⁻ → CaCO ₃ award (1) for reactants award (1) for product (as long as an equation has been attempted) ignore state symbols			2			2
