

8. The diagram shows reactions of bromine, Br_2 .

- (a) (i) Give the names of solution **B** and halogen **C**. [2]

solution **B**

halogen **C**

- (ii) Explain why bromine reacts with sodium iodide solution. [2]

.....

- (b) Write the symbol equation for the reaction between bromine, Br_2 , and iron to form iron(III) bromide. [2]

.....

- (c) Silver nitrate solution was added to a solution of sodium iodide. Silver iodide was formed.

- (i) State what you would expect to see. [1]

.....

- (ii) Give the **ionic** equation for the formation of silver iodide. [2]

.....
