

Section A

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
1.	(a)					1		1		
	(b)					1		1		
2.				$C_{50}H_{100}Cl_2$		1		1		
3.				 (1) more particles have energy $\geq E_a$ at higher T / greater area under curve at higher temperatures (1)	2			2		
4.				 accept <i>E</i>-isomer		1		1		

Question				Marking details	Marks available					
					AO1	AO2	AO3	Total	Maths	Prac
5.				aqueous sodium hydroxide (excess dilute) nitric acid (aqueous) silver nitrate yellow all four correct (2) if not all correct award (1) for silver nitrate and yellow	2			2		2
6.	(a)			any unambiguous formula representing 1-methylpropyl ethanoate e.g.  or $\text{CH}_3\text{COOCH}(\text{CH}_3)\text{CH}_2\text{CH}_3$		1		1		
	(b)			(concentrated) sulfuric acid do not accept 'dilute sulfuric acid'	1			1		1
