

2. (a) The following diagrams represent molecules of some gases.

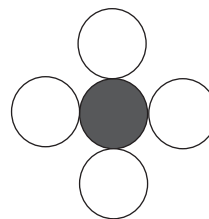

A

B

C

D

Give the **letter** of the diagram which represents each of the following molecules. [2]

sulfur dioxide, SO_2

ethene, C_2H_4

(b) This chemical equation shows the burning of ethene, C_2H_4 .

Complete the **word** equation for this reaction. [1]

ethene + oxygen $\longrightarrow$ + water
