

Question				Marking details	Marks Available					
					AO1	AO2	AO3	Total	Maths	Prac
	(e)			Olympic triathlon (1) + Any 2 × (1) from: swim time of (just over) 30 min / swim distance of ~1.5 km (1) cycle time of 1.3 h / cycle distance of ~40 km (1) run time of (just under/about)1h / run distance of ~10km (1) Alternatives for the remaining two marks: Graph shows a total time of 2.74 h (1) and the closest triathlon time is 2.88 h (1) OR Graph shows a total distance of 51.5 km (1) the total distance in table 1 is 1.5 + 40 + 10 = 51.5 (1) OR Graph shows total time of 2.74 (1) + transition time of 0.14 = 2.88 (1)			3	3	3	
	(f)			Distance = 3.8 + 180 + 42.2 = 226 km (1) Mean speed = 226 (ecf from addition shown above) / 12.8 (1) = 17.66/17.7 (ecf) km/h (1) For 2 marks: 17.6 / 17.65 on answer line		3		3	3	
	(g)			Change in speed = 6.2 – 1.5 = 4.7 (1) Acc = 4.7 (ecf from subtraction shown above) / 26 (1) = 0.18 / 0.2 (1)		3		3	3
